Dr. Jayne's ALTERATIVE

This valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient alterative and desobstruent properties, procuring for it a world-wide reputation as

THE GREAT PURIFIER OF THE BLOOD AND RENOVATOR OF THE SYSTEM.

Whenever the economy of the life-giving fluid has been vitated, it should be immediately called to help. It drives out pernicious humours, stimulates the absorbents, overcomes the obstinate state of the pores of the skin, regenerates the disordered organism, reestablishes health and spirits, and brings back a bright colour to the pallid complexion.

Thousands of testimonials establish its immense success for curing Scrofula or King's Evil, Skin and Mercurial diseases, Boils, Carbuncles and Ulcers, Dropsy and Dropsical Swellings, Enlargement and Ulceration of the Bones, Joints, Glands or Ligaments, Erysipelas, Epilepsy, Gout, Rheumatism and all diseases originating from a depraved and imperfect state of the Blood.

DR. JAYNE'S ALTERATIVE is compounded from carefully selected drugs; free from all mineral admixtures and may be Safely Relied on by all needing a medicine to build up the system, cleanse the blood and restore the healthy action of the secretive organs.

HAVAS' AGENCY

London 30th.

The Representatives of the Powers at the Conference at Constantinople have accepted Turkey's last proposal for a settlement of the Greek Question, and have written to the Greek Government advising it to do likewise.

THE RIACHUELO LOAN

We can have no greater proof of the onward march of the country than the increasing claims of Public Works on fresh capital. The Nat. Loan for 12 millions, negotiated last week with the Comptoir d'Escompte, would be unnecessary if we had no wines in Mendoza, or sugar in Salta to bring down to this market. It has been written with great truth that PROGRESS BREEDS WANTS. The progress of the Riachuelo works calls for the money.

We give at foot Gov. Romero's decree, methodizing this loan, fully agreeing with H.E. that the loan should be made here and the money borrowed from our rich estancieros, who are hard pushed to know what to do with their accumulated savings.

Cedulas have risen almost to par.
Bonos Provinciales at 1½ prem.
Nat. Bonds 89.
Roads and Bridges 96.
Treasury notes 3 prem.

Every stock in the market is rising, owing to the pressure of unemployed capital for investment. The new bonds of the Riachuelo are welcomed, therefore, by the whole market, which in a few months more will be left without a gold ring, as the doors of the Oficina de Cambios are already ajar.

The following is the decree—

B. Ayres, March 30, 1881.

CONSIDERING:

1st. That the Executive has been authorised, by a Law enacted on 26th of this month, to raise a loan for 1½ million hard dollars, gold, by the emission of Public Funds bearing 6 per cent annual interest and three per cent annual accumulative amortization, and at par.

2nd. That it has likewise been empowered to raise this Loan either at home or abroad.

3rd. That it is convenient for the State to raise it at home, as much for the reason that it is destined to be paid away for materials and works to be carried out in the country as with the view of stimulating the employment of home capital in carrying out works for the public welfare, and of transcendent importance for the development of Commerce, such as the canalization of the Riachuelo,

4th. That the Executive has well-founded reason for thinking that this Loan can be raised on equitable and advantageous terms, as patriotic and wealthy citizens, who have been consulted on the subject, have offered their co-operation,—

The Executive resolves and decrees:—

Art. 1.—The Board of Public Credit shall emit Public Funds, bearing 6 per cent interest and 3 per cent annual amortization, to the amount of 1,500,000 hard dollars, gold. The Bonds shall be signed by the Minister of Finance, the Accountant-General of the Province, and the Secretary of the Board of Public Credit.

Art. 2.—These Bonds shall be delivered by the Board of Public Credit to the Riachuelo Works Commissioners, according as the latter require them.

Art. 3.—The interest and amortization of the Bonds shall be paid quarterly by the Public Credit Office on the 1st of January, April, July and October.

Art. 4. Whatever the Works yield shall be lodged daily in the Provincial Bank, in account current, to credit of 'Riachuelo Funds for the service of the Loan, at order of the Board of Public Credit.'

Art. 5 This account shall be balanced every three months, and if the amount on hands be insufficient for the service of the Loan, the Board of Public Credit shall ask the Government to make good the deficit out of the General Revenue.

Art. 6—The Executive can devote a larger sum to the amortization, by drawings and at par, if it see fit.

Art. 7—The Riachuelo Commissioners are charged with the placing of the Loan.

Art. 8—The Loan shall be offered to the public in sundry forms.

1st. The subscriber may pay the whole amount he applies for, receiving Bonds payable to bearer

2nd. The subscriber may pay at different dates, on the following conditions.

(a) In 8 instalments, the first cash and the balance every three months.

(b) The Bonds representing the first instalment will be retained by the Commissioners as a guarantee for the payment of the others. In place of the Bonds so retained the subscriber will receive a nominal receipt transferable, but subject to forfeiture of the amount if the holder does not pay the instalments at the due dates specified on the receipt.

(c) After the second instalment is paid Bonds to bearer will be delivered to the subscriber for the amount he has paid.

(d) When the last instalment is paid, the Bonds retained as a guarantee on payment of the first, will be handed to the subscriber, who, in turn, will deliver up the receipt.

Art. 9—The amortization shall be in proportion to the amount paid on the Bonds, according to Art. 2.

Art. 10—The Loan shall be offered at the minimum price of 90 p. c of its nominal value.

Art. 11—The Riachuelo Commissioners are authorised to pay up to 1 p. cent commission to one or more stockbrokers for placing the Loan.

Art. 12—The total proceeds of the Loan shall be lodged in the Provincial Bank in account current, to the credit of the Riachuelo Works Commissioners.

Art. 13—The Commissioners can only pay away these funds for work done on the Riachuelo, under Law of 26th inst. In no case can the Commissioners devote these funds to any other purpose.

Art. 14—Let this be communicated etc.

PARIS LETTER.
THE HUGO FETE.
(From our own Correspondent.)
March 4th.

The most interesting fact about the 'Hugo Day' was, not the absence of the police, thus securing in advance the good order of the multitude, but the spontaneity of the fête which was at once poetical, popular, and let it be added, republican. The latter characteristic became inevitable the moment the monarchical press commenced to chain the ovation. Indeed one journal to promote discord, gave extracts illustrative of Hugo's political and religious evolutions, everything by turn and nothing long, a kind of cap that fits a great number of his fellow countrymen. But in all Hugo's productions, it was the talent, the man of genius, the apostle of toleration and the standing counsel of the rights of humanity that the classical ovation was intended to honor. He is the Titantic littérateur who has left his mark on the nineteenth century, and though we may smile at many of his ideas, and differ from his forms of expression, there are few who have arrived at adult, matured, or declining age, but feel linked intellectually with the great thinker and the indefatigable worker who has raised labor to the rank of nobility and found the noblest traits of humanity among the lowly and the ignored. The imposing manifestation had the distinctive charm to be peculiarly the out-put of youth: what enthusiasm, what buoyancy, what freshness in the thousands of students and members of Orpheonic Societies who marched past the residence of the veteran poet and deposited their honage wreaths. His residence was a barricade of flowers, and threatened to submerge the mansion, just like the Roman lady who was smothered beneath the weight of her jewels. Popular admiration took also less poetic forms in the apotheosis; thus the honorable guild of fishermen presented an enormous Scotch salmon; a pastry cook, a gigantic structure of delicacies, where the names of Hugo's chief works were displayed in fancy and colored sugar scrolls; a wine merchant supplied bottles of the most celebrated Grecian wines, with names suggestive of antiquity, and nectars loved by the Gods. As the various deputations defiled, Huge occasionally came to the window and bowed or cried; when that with the banner, in mourning, of Alsace and Lorraine arrived, he hid his face in his hands, and the crowd took off hats in the solemn silence, proof that France remembers a frontier question nearer and dearer to her than Greece. The printers put in a good appearance: they had a triumphal car, decorated with the flags of France, England and America; there were busts of the Republic and Gutteuberg; a small hand press was in the centre, guarded by two devils in working costume; close by, a stock of rollers, and behind the stereotyped cylinder, with an unrolling drum of paper; the steros were the identical ones that printed a quarter of a century ago, Charles (son of the poet) Hugo's first work. The various places of amusements also honored the entry of V. Hugo on his eightieth year last Sunday, either by declaiming verses in his praise, or representing his plays. In the latter respect the Gaité theatre surpassed all others with Lucrezia Borgia, admirably put on the stage and brilliantly interpreted, impossible to be otherwise with Mdlle. Favart as Lucréce, and Voltuy's beautiful voice as Gennaro. At the Trocadero there was a matinée, where the chief artistes from the principal theatres and the opera houses recited and sang selections from Hugo's publications. The building was as cold as a sepulchre, and calculated to prepare many a delicate-lunged visitor for that abiding place. Coquelin 'read' some verses by De Bonneville, dedicated to Hugo, both so and so. Mdlles. Croizette and Baretta were demi-successes, but their white satin toilettes, as a compensation, were much admired. Mounet-Sully was rapturously applauded in the 'Pauvres Gens;' he threw himself into the subject; so did Mdlle. Defresnes in 'Le Revenant,' and M. Lambert in 'J'irai, je rentrerai' from the Chatiments. Faure was absolutely prodigal in his part; what a superb voice; with what ease and delicacy it rises throughout its compass; he was three times recalled, and scampered under the organ loft to escape being collared for an ovation. The band of the Guard Republican played three morceaux, perfect as a matter of course; its 'chef' deserves every compliment for the 'March Tartare,' and military bands could not include that composition too often in their programmes; the fife or piccolo 'motif' will linger in the memory like an Offenbach melody. The President of the feast of reason was Louis Blanc, looking evidently ill, which explained the absence of a flow of soul from him; at his side was an equally celebrated man, and now for the ladies, the observed of all observers since he has identified his name with the repeal of the divorce laws—M. Naquet. His long

black hair and beard contrast strongly with his alabaster and effeminate Israelitish features; he is a most fascinating speaker— only to be surpassed by who was also present, that prince of—not speakers— but of 'causeurs,' Ernest Legouvè.

There is some screw loose between Presidents Grevy and Gambetta. The latter was not present at the Elysée ball, Achilles having decided to remain under his tent. The two G's and two P's differ on the mode of electing Deputies. M. Grevy prefers the actual system by arrondissements; M. Gambette advocates a return to the old plan of departments. The former by its sub division causes parochial claims to triumph; the latter favors the more valuably legislative or national wants. The salvation of the Republic is maintained by both 'chefs' to be involved in each of their systems. So far events have gone against Gambetta; Deputies having since four years labored assiduously to secure pension, post and place for the wirepullers of their arrondissement, are disinclined to saccrifice their chances of re-election for a plan that would inevitably oust them. Gambetta will likely not take office unless he be armed with his scheme—best in the national and higher political point of view, for electing the coming Chamber. There is an under current of discontent against Gambetta respecting his finger in the nasty Greek pie; he is also blamed for that shade of his opportunism which backed up a Bonapartist, M. Dugé, of the most violent nature, but converted to republicanism on the road to Damascus, against a republican by birth, for a deputyship. His favourite was beaten. Not much importance need be attached to the election of M. de Tilhol, ancient Mayor of Puteaux, and a specially amnestised Communist, as Deputy for St. Denis, by a majority of less than 200 upon over 7000 voters. Puteaux was, during the insurrection of March 1871, between the two fires, and it was felt the sentence pronounced on De Filhol was harsh, as his position was full of attenuating circumstances. Then one swallow does not make a summer. People have a kind of justice of their own that often corrects the excesses of the tribunals. In any case, the verdict of universal suffrage must be accepted.

THROUGH BANDA ORIENTAL

(BY 'PIKE'S PEAK')

Continued)

The landlord now appeared upon the scene and wanted to know who was the man that struck Billy Patterson, or in other words who smashed the demijohn, and the padre having retired, Montevideo wanted to accuse him, but the Porteño swore it was 'El Gato,' and I followed up by sternly rebuking the landlord for allowing his burglarious sow to break into our chamber and murder us all in cold blood. Things were looking warm, so the landlord made his exit, and the gin that was left in the demijohn made its entrance, a tumbler of which brought the Portuguese round, only to ungratefully accuse me of throwing the wood at him on purpose. As sleep was impossible, the cattle were brought out, and at 3 a.m. we went away through the moonlit palm groves for the village of Castillos with its 400 inhabitants, then a crossing the Sarandi and other creeks, we halted to breakfast at Chafalote on the stream and near the lake of same name, where a gentle youth of sweet seventeen, weighing 300 lbs., waited upon the table with the sleepy motions of Squire Wardle's Joe. Deer were abundant along the road and came sniffing up to within 50 yards of the diligence; the pampa owls blink on their burrow mounds disclaiming to get out of the way, and the tero-tero 'vanellus cayenus,' (A Latin word sounds swell now and then) makes the welkin ring with its continuation of ungreased axle—circular saw filing—ourse compelling melody. So far very little traffic has been seen; a few cars with yerba, sugar and tobacco from Santa Victoria to Rocha and with lime and hides to Santa Victoria sum up all. Nearing Rocha the camps are in poor condition and cattle are scarce, but more carts are seen. Rocha has 6000 inhabitants, is the most important town in the department of Maldonado, and will be the capital of the new department which is to be inaugurated next winter, the department of Maldonado being divided for that purpose. It is beautifully located, has numerous plantations of eucalyptus and poplar, several wheat farms and 3 flour mills turned by mule power, but stockraising is the principal standby. From Rocha, those who do not wish to travel by stage can go a few miles to the port La Paloma and there take the s.s. Comercio de Rocha to Montevideo. The fare is the same, 8 dollars either way. There are two fine hotels in the town, but our favorite is the Oriental, kept by a very amiable French family, who bought some fine claret from the salvage of the Hoogly, that was wrecked on the coast a few years ago, and it does our heart good to get a bottle of a special barrel which came out encased in another, and hear the landlord relate how he got the tip about and managed to finesse that barrel at the auction. For those who consider snails (caracoles) a delicacy, they can be had in Paris style here, for the landlord breeds them on a large scale and dishes them up on grand occasions and for his special friends, among which he numbers yours truly, who although not eating them himself got the 'chef' to do some for his fellow passengers, with the exception of the Portuguese, whom I had recommended to go to another hotel owned by a man whom I had a grudge against. The padre and the Porteño pronounced them delicious and I took their word for it, but the Oriental said that for genuine good snails Montevideo would lay over all creation, and for once I agreed with him. Rocha has a pretentious but unfinished church, a finished, but unpretentious theatre, a plaza where some musical shoemakers toot and bang on Thursdays and feastdays, and the only original haunted house in the River Plate. This crumbling structure was erected by a friar who died many years ago without leaving a will, and the house went into litigation, nettle cultivation and bat breeding. Various squatters tried to live in it rent free but were scared out, for as they ascended the staircase, the 'duende' in a whisper soft and low would request them not to tread upon his eye. Vulgar materialists may affirm that this story is all my eye, but the public and press of Rocha stick to it and they ought to know.

SCOTCH SUNDAY SCHOOL SOIREE.

The annual soiree of the school was held on the 30th ult. in the Coliseum, with more than ordinary eclat The beautiful building had been tastefully arranged for the occasion by the lady and gentleman teachers; the evergreen drapery on the walls interwoven with scripture texts and capped by the Sunday School banners, produced a pleasing effect, but what struck us so forcibly for its appropriateness' on entering the Hall was the long tea table, of snowy whiteness, in the form of a cross; its centre was decorated with a profusion of flowers, and artistically arranged as only fair hands can do, and flanked by a profusion of creature comforts more easily imagined than described, reminding us of the beautitully appropriate lines of one of our very modern tea total poets.

> The banquet waits our presence,
> Festal joy laughs in the steaming teapot,
> And piles of luscious buns,
> Illumined by the gas's dazzling beams,
> Drive all our cares away.

The children from the outlying villages had all been invited, and the gathering round the table took place at 7.30; they were carefully arranged by their teachers, numbering fully 200, the parents and friends occupying the sides of the building, which was filled to overflowing. The banquet was opened by the children singing Grace, in which we all joined, and as the solemn swell of the Old Hundredth rose and fell through the majestic Coliseum, fancy carried us back to our own, more majestic Scottish hills and glens, where the same solemn swell had often reverberated under less favoured auspices. Tea was partaken of with an unsophisticated youthful zest, piles of cake and buns disappearing as if by magic.

The children again sang Grace, and the second part of the programme was opened by an eloquent and feeling address by Mr Thomas Drysdale, who has done so much for and who takes such a deep interest in the Sunday School. Miss Gallagher presided at the harmonium and, assisted by the Church choir, led the youthful voices in singing at intervals a number of their beautiful hymns. The Rev. Mr Fleming's address followed, showing the deep earnestness he feels in Sunday School work, and forcibly impressing upon the young mind the importance and necessity of regular attendance, and of a kindly feeling towards one another. Then followed the amusing part of the programme. The dissolving views by the magic lantern, dexterously managed by Mr Forrester, to whom we owe a debt of gratitude for his many kindnesses on these occasions, and the views were explained by our Secretary, Mr Farrar, in his usual graphic style. This part of the programme always tickles the youthful fancy, and tends to upset its gravity, but such is the characteristic discipline of the School that our Pastor's magic bell soon lulls the distant fold. Mr Dodds offered a few remarks which he did not mean to be a Sunday School address, as he thought they were rather in a merry mood at that stage of the evening, and would only on behalf of the school thank the many kind friends for their encouraging presence, specially offering their warmest gratitude to their good friend, Mr. Drysdale, for his fatherly care over the school, wishing him safely over the sea to tell to his own loved ones at home of the many happy hours he had spent in the Sunday School.

The Rev. Mr. Smith, in a few well chosen remarks, thanked his staff of teachers for their untiring self-denying efforts on behalf of the school, and their successful carrying out of the arrangements. He thanked all those who had contributed in any way to the success of the soiree specially remembering those who had acted as stewards and the matron ladies who had presided at the tea-table.

We sang the Doxology at the late hour of eleven o'clock, and the scene closed over one of the happiest gatherings we have witnessed of our Sunday School. As we retired from the majestic building amidst the fun and frolic of our youngsters, we could not help making a free translation of Burns's inimitable lines in 'Tam o Shanter'—

> Care, mad to see sic mirth and glee,
> E'en drooned hersel' amang the tea.

EDITOR'S TABLE.

There was nothing in particular going on yesterday morning. The weather was greatly and justly praised. Some of our colleagues still keep "harping on my daughter" —the Loan, but the general public have had enough of the subject. The verdict of opinion about the fatal battle of Majuba Hill is that it was the biggest blunder of the war: even Lord Chelmsford did not beat it when dealing with the Zulus and the Boers are a far more formidable enemy, owing to their accurate shooting.

Another attempted suicide! A young fellow named Sangerina shot himself through the body on Wednesday, but did not succeed in shuffling of his mortal coil. The cause assigned for the crime is hardly credible, viz, that he had a row with his bootmaker, either about the fit of his patent-leathers or the price of them, most probably the latter. Soon, the young men of Buenos Ayres will take to shooting themselves if the weather should not be to their taste, or they catch a cold in the head.

The National Government has announced that it will grant to private parties no more of the lands reserved for colonies on the rivers Negro and Colorado till the surveys are completed and the exact area of these lands is ascertained. Quite right.

There is stomaehic ecstacy amougst the sailors of the navy, who are henceforward to be fed mainly on provious preserved on the Romany system, and which Professor Kyle, than whom there is no more competent authority, here or any where else, declares to be excellent and very healthy. Up to the present the fare in vogue in the Argentine navy was not such as Lucullus or Soyer would approve of, but in future it will be different. Preserved provisious are now brought to such perfection in Europe that there is an enormous increase in the demand, especially for families of the less affluent classes, as the bane of private houscholds—waste —is avoided by using them. Splendid Julienne soup for four people can now be bought in tins, in London or Paris, for sixpence! Mr. Romany should be able to supply here as good and better articles at a cheaper rate, and no doubt will; his stall in the Italian Exhibition is well worth a visit.

A subscriber just returned from a month's vacation trip to the Uruguay River, as far up as Uruguayana, describes the scenery on both banks of the river as charming between Salto (port of Monte Caseros) and the upper part of same river. Capt. James Carroll, of the inimitable light draught steamer Mensajero, is just the man to command such intricate navigation, where, with 65 tons cargo, she drew only 29 inches on her rudder, and in soundings of from 63 to 40 inches of water at a pass called San Pedro. The fittings, accommodation, table service &c. leave nothing to be desired, being all of first-class English manufacture. The price of land around Uruguayana (which is remarkable for its fertility) is very high. We hear of sales at 15,000 and 20,000 pats. per suerte' Of course it must be remembered that the above town is the point of transit for all goods to the interior of Rio Grande and other parts of Brazil from Montevideo, and is nicely situated in a commanding position on the left bank of the Upper Uruguay River. The heat during summer is fearful, reaching 42° centigrade, when all animal life seeks the shade; the day our subscriber remained on shore (being a pleasant warm day) the heat only reached 22° centigrade.

There will be a Communion Service at the Scotch Church on Sunday next, for which a preparatory service will be held this evening at 7 o'clock.

The soiree of the Scotch Sunday School, at the Coliseum, on Wednesday evening, was a great success The hall was just comfortably filled with the little ones, their parents and friends, and young and old enjoyed themselves thoroughly for several hours. The tea-table gave most appetising proof of the generosity and gastronomic taste of the patrons and friends of the School.

In reference to Mr Voussaveky's shooting, we are requested to state that he shot 16 pigeons consecutively as evidenced by the books of the club; furthermore, that he is at the disposal of any gentleman, who does not believe it, to try the experiment at 32 or 33 yards ascension, according to his desire.

The leading article in the *Republica* yesterday morning shows clearly that the question of a capital for the province of Buenos Ayres is susceptible of very lively development, and that the sooner it is settled the better.

The Swiss Rifle Club announce one of their grand shooting matches at Belgrano on Sunday next, and another for that day week. Competition will not be confined to members of the Club, but will be thrown open to all, and grand sport may be expected. Shooting begins at 7 o'clock a.m. It is expected that some of the soldiers in garrison who are crack shots will compete. The more the merrier.

The Chess Club is now in full working order, in the saloons of the 'Confiteria del Gas', Calle Suipacha, where play goes on every night. This Club is cosmopolitan, and a leading member of the Committee requests us to say that they hope many English members will join the Club, as Britishers are generally good chess-players. There will be a General Meeting to-morrow evening and members are asked to attend punctually, as business of importance has to be transacted.

Number 10,049 won the 40,000 pats in the Caridad Lottery on Wednesday last. Just fifteen thousand pats worth of tickets were returned to the Administration from Buenos Ayres, amougst them four fifths of the big prize; the other "quinto" was sold here, but we have not heard who the lucky purchaser is. One way or another the Administration of this Lottery always manages to secure either the whole or the best part of the 'grande' whenever it is of larger amount than usual, and the public has lost confidence in the Caridad drawings. We are likely to be deluged with lotteries soon, as Santa Fe is getting one up, and it seems to be a settled thing that the old Beneficencia Lottery (the fairest of the lot) is to be re-established here.

The *Santafecino* reports an appalling case of wife murder at San Jose. The criminal gave his wife a dose of strychnine, and when she called for a remedy he gave her a second dose, in some soup, and finally a third, which killed her on the spot. The fiendish crime was committed at the instigation of a widow with whom the criminal was in love.

The latest news from Montevideo is that troops have been sent to the Brazilian frontier, as the cry of 'Latorre is coming' has again been raised. This repeated cry of 'Wolf!' is certain to prove true some day before very long.

Thirty thousand paper dollars worth of old steam boiler burst in Calle Garay on Tuesday night. Fortunately nobody was killed or even hurt, although the building was blown to bits. Is there no Municipal Inspector of Machinery now?

Holloway may hide his diminished head. Miss Esmeralda Cervantes's Elixir Topycopyini (we always find it difficult to get our tongue round the name of this medicine) completely cured a raving lunatic on Tuesday in the Men's Hospital; he took one tablespoonful, and now he is able to write a lucid article on the Loan, the Navy, or any other great topic of the day. By all that's wonderful!

The National gunvessels Bermejo and Parana, and the transport Cabo de Hornos, have been ordered on a cruise southwards. Their headquarters for the next twelve months will be San Blas Bay, the finest anchoring ground on the Atlantic coast. Some people call this Blast Bay, but the pun is a wretched one, as the place is admirably sheltered from all the winds that blow, and no mariner that has ever put in there has had his hope of finding a safe anchorage blasted.

Great news. The Sub-Delegate at Bahia Blanca announces that a copper mine, yielding 55 per cent of pure ore, has been discovered 7 miles west of the Welsh Colony at Chupat, in the Sierras.

A crazy old bachelor in Chicago has had 60 clocks set up in his house, each set one minute slower than the other, so that a perpetual striking goes on all day and night. The horrid creature says the noise is far less than that made by an average wife and children, to say nothing of servants.

General Baquedano has accepted his nomination as a candidate for the Presidency of Chile, offered him by deputations of all the political parties. Vicuña Mackenna is also on his side.

Another grand instrumental concert comes of at the Italian Exhibition this evening, also M. Panthou's benefit at the Florida Gardens.

The *Libertad* says that the sales of Provincial Public Lands advertized for this month will be countermanded by the Govenment.

The story about the escaped tiger in Palermo Park is all moonshine. What a pity! There was any amount of sensation to be had out of an escaped tiger, if it could only have been kept at large for a week. At the same time we must compliment the *Tribuna Argentina* on the really masterly manner in which it got up the 'canard,' or rather the tiger.

The Lamport and Holt steamer Leibnitz entered Montevideo yesterday. Her mails come up this morning in the Cosmos.

In case anybody cares to know what is going on in that hotbed of revolution, Bolivia, we may mention that there has been another dust there, headed by General Rendon, who has proclaimed Dr. Arce as President of that truly unfortunate Republic. The rebels have seized all the Krupp guns and ammunition lately sent from this country to Campero's Government. We hope the sellers secured payment in advadce, otherwise 'adios my plata!

Through the attention of a rich country subscriber we received to-day a printed copy of the new Fencing Law, which we so much needed. We shall publish to-morrow in English and request our country friends to cut it out from our columns and archive it

All day long there was a crowd on 'Change and 5 clerks at the liquidators; it was easy to see the pressure caused by the liquidation, but no one anticipated that at the close of the day would bring what it did.

Exchange was done at 49⅝ and 49¾, and 5.24 Paris, and 5.26 Antwerp.

Some large sales of superior wools in deposit are spoken of at very reserved price, we believe about 110. Both wool and hides rule much more active, and at last there is a stir in export trade. Shipbokers reported 500 bales of wool embargoed on board a vessel in port by the Custom House, we believe for duties.

The Douro is expected in port to-morrow.

Sr Canizas, a merchant of Salto, B.O., has been murdered by a peon.

At 4 o'clock about 200,000 pats. sold at 28.65, and ½ prem. paid for a loan of 160 Bank Shares till 16th April. Subsequently 200 shares sold at 79½ cash, and 100 for end of April at 80.

But at half-past 4 there was a flare-up at the liquidator's counter, and the news ran like wildfire through the Bolsa that there was no paper money, and some 15 millions short. After some delay an auction was called by the liquidator, and such an auction; we never before saw anything like it.

The auctioneer began by selling gold in lots of 20,000 pats. at 28.55, and subsequently in lots of 10,000 pats. It would fill our columns to give all the lots sold, suffice it to say that some outsiders thought the auctioneer was selling the gold of the loan, and others thought the remate would hold all night. 795,000 pats gold in lots of 10,000 were sold, prices dropping to 28.30, at which price about 50,000 sold, then bidding strengthened, and the last few lots were sold at 28.35 to 40. The whole floor of the Bolsa shook under the hammer of this gold auctioneer, and the remarkable feature was that the Bolsa has remained with the gold, which is rather an awkward affair. And thus closed this memorable gold auction the greatest ever witnessed on 'Change, and perhaps for many reasons the most remarkable.

To-morrow the coupons on the Nat. Bonds and Cedulas will be paid, which will throw fresh money on the market.

We extend a warm welcome to them all and hope they agree with the early closing rule, which is such a great improvement. Messrs Sansinena & Sons and Mr E Casey have also joined the Centro Comercio.

To-morrow a whole fleet of steamers is expected up from Montevideo—
The Pampa with 1,800 tons cargo
The Precurseur, 1,200 do
The Orenoque, 1,500 do
The L'Italia, 1,000 do
The Cesare, river steamer, all bring passengers and full cargoes.

The sale of the str. Satellite is reported at reserved price.

We are happy to say that Capt. Wiscaswitch is reported to be much better and revovering.

Mr Moores has sold a lot of fine wool from Chascomus at $110 m/c, about the highest price going.

A large sale of cattle for a new frontier estancia is reported, price reserved; but said to be about $250 'al contado'.

The mails in from Rio bring the following—
"Messrs Wilson Sons & Co., Limited, of Pernambuco, received a small steam tug from England on the 4th instant. It is called the Victoria, and is destined for the lighter towing service of that port.

"Advices from Ceara of the 2nd inst. report the arrival there of the French barque Francis for provisions. The barque was 120 days out from Fernandina, U.S., and is bound for St. Denis, Reunion Island.

"*Jornal do Recife* of the 5th inst. says that a telegram has been received at Pernambuco from Rio Grande do Norte to the effect that a British brig had been shipwrecked on the Caissara reefs, at a place called Lavadeiras. The brig had a cargo of wines, but no name was given."

From the Oficina Central de Tierras we have received the following explanation of the Public Land sales in this Province just effected; it will be seen how very cheap these lands were bought and on 8 years time—

Australian wool circular—
Henry Austin's month ly circular—
Sydney, Jan. 17th, 1881

Greater disposition to do business has been the leading feature of the four weeks ending to-day. On the whole prices have been more uniform and steady than is usual at this period of the season, when a surfeit of wool not unfrequently results in dulness and apathy on the part of buyers, together with a vigorous effort on their part to get wool on more favourable terms. Growers having recognised the necessity of lowering their pretensions have, in numerous instances, reduced their limits and held out inducements to buyers, of which the latter have not been slow to avail themselves. The result has been a large business and a marked thinning out of stock.

On paper it cannot be denied prices look easier; but when allowance is made for inferior selection, appearance, and get up of most of the wools that have changed hands lately, it is more than doubtful whether the wools for which rather higher prices were given, do not on the whole represent the cheaper article.

New England wools have been in plentiful supply and shown greater deterioration than any other description. They are short, weak, and when in the grease, generally very wasty; all this, no doubt, in a great measure owing to the very severe winter the sheep had to encounter when the wool was growing on their backs. Only in Riverina and the Southern districts has the growth of wool, that is to say the length, equalled last year's clip.

Freights, which by comparison with former years, have this season been excessive, are now weakening, and will probably decline still further as stocks of wool decrease.

Any fears that were entertained of another drought have been happily dispelled during the last few days by timely rains, which appear to have been pretty general all over the colony.

The clearance of the Ben Nevis brings up the export figures to 138,930 bales, or say 4',921 bales in excess of the number at the corresponding date last year.

Sheepskins—

Are in strong demand at from 6½d to 7¾d for best, 4d to 5½d for medium, and 2d to 3½d for pelts and short-woolled.

Tallow—

No mutton offering; beef dull of sale, in consequence of high freights, at from £24 to £25 per ton.

Tin—

After a temporary advance of say thirty shillings per ton, has again receded to last month's quotation, £87.

Freights—

Wool, open, ¼d per lb.; steamers, 5 o/o prim.
Wool, grassy, ½d do; do
Wool, clean, ¾d do in full; sailing ships.
Wool, greasy, ¾d do do; do
Tallow, 80s per ton.
Hides, 30s do
Tin, 30s do per steamer.
Tin, 15s do per sailing vessel.

The commission entrusted with the work is composed of 1st Lieutenant Adolpho Pinheiro, and the engineers Rykevorsel and Van Halpen.

Of course, others had done the same thing before, but their names had a foreign sound and did not therefore raise the enthusiasm of the populace. On the 6th Joaquim swam across accompanied by quite a fleet of small boats, filled with enthusiastic friends. A movement is on foot to have Joaquim appointed swimming-master to the monitor Solimoes, in order that the crew may receive all necessary natatorial instruction, and in order to provide a means of sending dispatches ashore during the autumn manoeuvres of that famous ironclad.

—The American packet City of Para, Capt. Crowell, arrived at this port on the evening of the 7th inst, after the longest and most difficult passage yet experienced by any steamer of this line. She left New York on the 5th ult., with a cargo of 2,000 barrels of flour and 3,900 packages of merchandise. The second day out the steamer experienced bad weather, which caused a shifting of the coal and threw her on her beam ends. The cargo shifted also, and the fires were put out through a flooding of the fire room. Nearly two days elapsed before the fires were rekindled, the ship being in great danger during all this time. Owing to the damages sustained the steamer was unable to make good speed, and came in much behind her usual time. She brought 54 passengers, among them Mr W B Smith, of the New York *Times*, and his wife.

En nuestra casa, San Martin 51,
El Viernes 8 de Abril,
A las 2 de la tarde,

Venderemos al mejor precio y dinero de contado en uno o mas lotes y por cuenta del Sr D. Matias Ramos Mejia, este magnifico rodeo, compuesto de:

650 cabezas mestizas Durham, verdaderas Short-horn, que se pusieron en rodeo en un solo potrero, alambrado desde el año 1862, tienen por origen el tronco mas escojido de la hacienda que vendio en esa epoca la afamada estancia del Sr Alfaro (de Canuelas) habiendo sido anteriormente del origen de los primeros introducidos al pais por el Sr. Miller y nunca han sido servidas sino por toros puros de lo mejor, importados uno y otros de la renombrada cabaña de los 'Tapiales,' por cuya razon tiene este ganado la misma pureza de sangre, ofreciendo la ventaja que la paricion de los ultimos anos esta toda orejana.

Es precisamente de este ganado de donde se extrajeron las magnificas vacas que constituyen el conocido y acreditado tambo en Ramos Mejia, que siempre han estado servidas por toros puros de lo mejor en Buenos Ayres y que dan 22 a 24 cuarias de leche sin apurarlas.

En el rodeo que se vende hay gran cantidad de estas tamberas.

Se ve, pues, tomando su origen y la fecha (1862) que este ganado es clasificado de mestizo por su proprietario, cuando sus cruzas las clasifican hoy de ¾ y ¾.

La venta se hara por todo lo que pisa.

Los dias Miercoles y Sabados se parara rodeo, y habra en la Estacion Maipu (F.C. del Sud) un brack a 4 caballos, que en 2½ hora conducira a los interesados a visitar las haciendas hasta Mari Huincul.

Base de venta $1000 una cuadra
En nuestra casa Alsina 78
El Viernes 1° de Abril
A las 3 de la tarde

Remataremos a la mas alta postura con la base de $1000 por cuadra cuadrada y condiciones muy ventajosas que se estipularan en el acto del remate. Uno de los mas valiosos y productivos Establecimientos de campo que existen en los alrededores de la ciudad. Por su configuracion y condiciones, forma este Establecimiento dos fracciones unida una a la otra, pero que si se quieren, pueden admirablemente dividirse en dos Estancias, sin que por ello venga a sufrir perjuicio alguno, cualquiera de las dos fracciones, asi es que el examinarlas comenzaremos por el Establecimiento.

LA FIGURA

Compuesto de una legua cuadrada de figura enteramente regular, alambrado por los cuatro costados; con fierro y postes de ñandubay de primer orden teniendo una estension de 32,400 varas lineales mas o menos de alambrado sin contar los alambrados de la quinta, alfalfares y potreros.

La Estancia principal se compone de un gran edificio de azotea magnificamente construido, maderas duras, techos de baldosas, compuesto de 7 piezas 2 de ellas sala y comedor de 9 vs. por 8, pisos de tabla empapelados y con cielos rasos, dos grandes corredores con pilares de fierro, otro gran edificio igualmente bien construido con 10 piezas, despensa, cocina, letrina, gran mirador formando ambos edificios, 1 cuadro con 1 gran patio todo embaldozado que tiene como 500 vs. cuadradas con un magnifico aljibe en el centro y grandes paraisos en los estremos, todo al bajo cercado de material con rejas de fierro, 1 gran cochera para 3 carruajes, caballeriza, deposito para pasto seco etc., 1 gran noria calzada de material con pileta alrededor y otra pileta mas revocada en tierra romana; un lindisimo jardin con glorieta parral zarzo de fierro seno de las mejores plantas de adorno y frutales, todo cerca o de pared y con pileta que se surten de la gran noria por medio de cañerias.

Departamento para el mayordomo, departamente para peones, dos grandes galpones, uno de ellos de 30 vs. de largo techo de teja con alto; tambien, juguetes calcados y bebidas de material, otra gran noria que derrama sus aguas a una gran laguna artificial que nunca se seca, una gran pileta para baño de ovejas de 20 vs. de larg por 2½ de profundidad, todo cimentado Portland, y trascorral embaldosado y gran monte de las mejores frutas como ciruelas, cerezas, peras, damascos, etc. etc., montes de paraisos, grandes alfalfares todo cercado de alambre y cina-cina, que ocupan una area de 25 cuadras por lo menos, un gran potrero para la hacienda fina de 700 vs. por 1500 vs., 10 puestos de material techo de teja francesa, algunas de 2 y otros de piezas con su pozo correspondiente calzado de material.

Por la palida descripcion que hacemos, se puede juzgar que es un establecimiento de primer orden y que por la calidad de sus pastos y las comodidades que ofrece puede destinarse a todo lo que se relacione con trabajos de ganaderia, ya sea para cabaña y criade animales finos de todas especies, para invernadas, para 25 a 30,000 ovejas para agricultura y en fin si no lo quiere esplotar personalmente quien lo compre, puede obtener facilmente de 150 a 180,000 pesos de arriendamiento anuales, que debe comprenderse no es exagerado por un establecimiento como este y que dista apenas unas 14 leguas de la ciudad y tres una a la estacion (Zapiola) del Ferro-Carril del Oeste, Ramal a Lobos, pudiendo ir y volver en el dia con toda comodidad y vigilar el movimiento de la Estancia.

Es imposible encontrar una casa igual en muchas leguas a la redonda de la capital y las personas que saben lo que son establecimientos de campo y lo que cuesta formarlos, podran decir si la base de 1000 $ por cuatro es o no inflna, son ese precio no pagan la mitad del valor del campo pelado, calculen lo que vale: alambrado, poblaciones, montes, etc., y se formara una idea de lo que es la estancia "La Figura."

NUESTRA SENORA DE LUJAN

Este Establecimiento se compone de 1,700 cuadras cuadradas, todo cercado con cinco hilos y postes de ñandubay y teniendo casi 43,000 varas lineales de alambrados, puede dividirse perfectamente en tres fracciones compuesta; la primera de 1,200 cuadras, la segunda de 300 cuadras y la tercera de 200 cuadras cuadradas que quedan completamente separadas si se quiere, haciendo una sola linea de alambrado y tener asi dos inmensos potreros de reserva.

Las poblaciones son la estancia principal, lindo edificio levantado a una vara del suelo con escalinata de marmol, con 5 piezas perfectamente empapeladas y con cielos rasos, departamento para peones y capataz, cocina, pozo, monte, quinta, alfalfares; otra poblacion de material con 7 piezas, monies etc. y once puestos de material con su pozo cada uno.

La calidad de los pastos es de la mejor que hay en toda la Provincia, sus pastos son tiernos y se componen de trebol, alfilerillo, cola de zorro, flor morada, y no hay una pulgada de desperdicio en todo el area. Ademas los senores licitadores podran juzgar ellos mismos viendo provinciendoles que esto campo ha sido la salvacion de varios vecinos durante la ultima epidemia que lograran salvar sus haciendas, arrendando algunas fracciones del mismo campo.

Como ser: los senores Luis Barrera, Galvan, Juan Rodriguez y muchos lecheros de Moron, que llevaron allí sus vacas, la situacion del campo es admirable, queda inmediato a una via-ferrea, con estacion a 2 leguas para la remision de los frutos, a 14 leguas de los corrales a donde pueden llegar las tropas de hacienda descansadamente en 16 a 18 horas que es una gran ventaja para campo de invernada.

Para la cria de ovejas el campo no tiene rival, prueba de ello es que las lanas del partido de Cañuelas siempre que se han vendido a la par de las mejores de la Provincia.

La base para la venta sera la misma que para la "Figura" es decir mil ps. cuadra y en caso que haya interesados por ambos Establecimientos se venderan en un solo lote.

Es a no dudarlo una rara ocasion que se ofrece a los capitalistas de hacerse de una valiosa propiedad que bien administrada la puede producir inmensos beneficios al ano y los hombres ricos que tienen hijos y quieran dedicarlos a trabajo de campo, pues que "cultivar el suelo es servir a la patria" y asi mismo no encontraran ocasion mas brillante para adquirir un Establecimiento conocida y cuya formacion ha costado ingentes sumas de dinero y muchos anos de constante labor y dedicacion no interrumpida.

Ademas las condiciones para el pago que estipularemos en el acto del remate, hara mas comodo y facil la adquisicion de esta propiedad,
